EDUCATION

Geeta University, Panipat   *2023 – 2027*
B.Tech (Computer Science and Engineering)

Guru Gobind Singh Sr. Sec. School, Safidon   *2021 – 2023*
HBSE (Intermediate)

Guru Gobind Singh Sr. Sec. School, Safidon   *2020 – 2021*
HBSE (Matriculation)

INTERNSHIP

Full Stack Development   June 2025 – August 2025
Coding Blocks   *Geeta University, Panipat*
- Developed full-stack applications using the **MERN stack**, gaining hands-on experience in both frontend (HTML, CSS, JavaScript, React) and backend (Node.js, Express, MongoDB) technologies.
- Built and deployed responsive, user-friendly web projects, strengthening skills in **RESTful APIs, component-based design, and end-to-end application architecture**.

DSA with C++   June 2024 – August 2024
Coding Blocks   *Geeta University, Panipat*
- **Concept Mastery:** Solved over **700+ DSA problems**, strengthening expertise in advanced algorithms, recursion, backtracking, and data structures using C++.
- **Peer Engagement:** Conducted hands-on sessions and mentored peers, simplifying complex topics and guiding real-world DSA implementations.

PROJECTS

Full Stack Development (Vercel)(GitHub)) | *HTML, CSS and JS*
- Developed a full-featured e-commerce platform with a responsive cart, secure checkout, and integrated admin dashboard for managing users and products.
- Built using the **MERN stack — Node.js, Express.js, MongoDB (with Mongoose), and React.js**, ensuring seamless full-stack functionality.

Quiz Management System (GitHub)(Live Link) | *MERN Stack (MongoDB, Express, React, Node.js)*
- Developed a full-stack Quiz Management System using the **MERN stack**, enabling admins to create and manage quizzes while users can attempt them with instant result evaluation.
- Implemented secure authentication and role-based access control with **JWT and bcrypt**, ensuring data protection and efficient user management.

Task Manager (GitHub)(Live Link) | *MERN Stack (MongoDB, Express, React, Node.js)*
- **Full-Stack Task Management Application:** Built a robust, scalable task manager with RESTful APIs using **Node.js and Express for backend, and MongoDB** for data persistence.
- **Dynamic Frontend:** Created an interactive, responsive UI with **HTML, CSS, and JavaScript**, enabling real-time task creation, editing, and deletion.

TECHNICAL SKILLS

Languages : C++, C, Java, Python & JavaScript.
Development Tools : Git, Github, VSCode, Oracle.
Web Development Technologies : ReactJS, NodeJS, TailWind CSS, HTML, CSS, MongoDB, Express.
Other Technical Skills : Data Structures & Algorithms, OOPs, C++ STL, OS, DBMS & SQL.

SOFT SKILLS

Quick learner, efficient problem solver, collaborative, and result-oriented.

ACHIEVEMENTS & AWARDS

- **Google STEP Internship (Jan 2025 – Feb 2025):** Shortlisted and cleared 2 rounds of the Google STEP selection process by solving algorithmic challenges and implementing efficient coding solutions.
- **700+ LeetCode Problems:** Built deep proficiency in algorithms and data structures by consistently solving problems, including advanced topics like **DP and recursion**.
- **Challenge Highlights:** Solved complex problems such as **N-Queens and Regular Expression Matching**, showcasing analytical and coding strength.
- **100DaysOfCode (July 2024 – October 2024):** Successfully completed the challenge, improving coding discipline, problem-solving consistency, and algorithmic thinking.

EXTRA-CURRICULAR ACTIVITIES

- **AWS APAC Solutions Architecture Virtual Experience Program (Certificate)** – October 2025: Designed a scalable cloud architecture using **AWS Elastic Beanstalk** and presented cost-efficient solutions to a simulated client.
